CAD PROJEKT K&A

Training program

Creator AI

CAD Decor PRO / CAD Kitchens* / CAD Decor*

HOW LONG THE TRAINING LASTS
1 day (1,5 hours)

WHERE IT IS HELD
live **online**

This training is designed to prepare participants to use the Creator AI effectively – from analyzing an interior design project, through calculations and editing visualizations, to working with free and paid AI models, creating their own prompts, saving results, and using tools such as Upscaling. After completing the training, participants will receive a **personalized certificate** confirming the skills they have acquired**.

ISSUES YOU WILL LEARN ABOUT

- analysis of the interior design project that will serve as the basis for the training,
- performing path tracing calculations for selected views,
- AI Creator: basic information,
- overview of the AI Creator window and free AI models,
- Prompts—using pre-made prompts and editing them,
- saving your own prompts to the User Database,
- using the AI Creator to quickly edit unrendered images,
- using the AI Creator after path tracing calculations,
- obtaining an API key,
- using paid models,
- saving completed visualizations,
- Upscaling – using the tool,
- reviewing the material, and asking your own questions.
