

Training program

Technical Documentation

CAD Decor PRO / CAD Kitchens / CAD Decor

HOW LONG THE TRAINING LASTS

2 hours

WHERE IT IS HELD

live **online**

The aim of the training is to acquire knowledge and skills in the field of creating professional technical documentation. During the classes, participants will work on a specific project, which will allow them to immediately translate the acquired knowledge into practice and use it in their daily work. After completing the training, participants will receive a **personalised certificate** confirming the acquired competences*.

ISSUES YOU WILL LEARN ABOUT

- analysis of the interior design on which the training will be based,
- linking documentation with visualization,
- discussion of the documentation window,
- generating documentation according to selected pages,
- saving your own documentation templates,
- discussion of the functionality of individual pages,
- editing the content of the documentation, adding/removing pages,
- copying content between pages,
- adding elevations and sections to the generated pages,
- dimensioning,
- saving your own symbols,
- editing and saving tables,
- saving the documentation and exporting it to a PDF file,
- checking messages, your own questions.
