

Training program

Doors and Windows Module

HOW LONG THE TRAINING LASTS
2 hours

WHERE IT IS HELD
live **online**

The aim of the training is to acquire knowledge and skills in working with doors and windows in our programs. During the classes, participants will learn practical methods of using tools while working on a specific project. This will allow them to easily apply the acquired knowledge in their daily work. After completing the training, participants will receive a **personalized certificate** confirming their acquired skills.
