

Training program

Overview

HOW LONG THE TRAINING LASTS

1.5 hours

WHERE IT IS HELD

live **online**

The aim of the training is to acquire knowledge about the principles and tools for creating lists of elements in a project, with an emphasis on practical application and improving work efficiency. After completing the training, participants will receive a **personalized certificate** confirming the skills they have acquired*.

ISSUES YOU WILL LEARN ABOUT

USING THE OVERVIEW IN THE PROJECT

- Analysis of the interior design on which the training will be based.
- Relating the overview to the visualization and technical documentation.
- Discussion of the overview window.
- Categories and rooms, use of tools.
- Editing a table.
- Use of the dictionary.
- Printing and exporting a list view from 2D and visualization levels.
- Exporting a list view from the documentation level.
